

Wall of Respect Digitization

The Current wall of respect in the Islamabad office has been a core legacy in Touchstone Communication's history. It would be optimal for us to digitize a part of our legacy. The concept comes from an e-sports agency, Character Select Agency. Their website has a dedicated section for their talent selection. I have taken the liberty of attaching proof of concept to better assist in understanding the vision.

- 1- The selected Associate
- 2- A Brief description of the Associate and their journey in Touchstone Communications.
- 3- A scrollable roster of all the candidates in the database
- 4- The motivational quote given by the Associate
- 5- Associate campaign /department
